

SMITH™ MULTI-USE

NO MORE PUMPING!

NEXT GENERATION, HIGHER PERFORMANCE MOTOR & PUMP delivers 36% more output than earlier design to handle a wider range of chemical applications.

CONSISTENT CHEMICAL SPRAY OUTPUT ensures optimal application rates saving time and reducing chemical waste.

WITH A NEW NOZZLE ASSORTMENT, THIS SPRAYER WILL NOW SPRAY UP TO 35' using the special streaming nozzle and will handle higher viscosity chemicals with the included brown fan nozzle.

IMPROVED, THICKER WALLED HOSE reduces kinking and offers a longer service life.

UNIQUE STEEL SLEEVE/POLY WAND composite construction is 3X stronger than most metal wand designs while offering broader chemical compatibilities.

TANK AND SHUTOFF FILTERS are tool free for service and ensure clog free performance for liquid and wettable powder chemicals.

VITON® and SANTOPRENE SEALS offer broad chemical compatibilities for agronomic janitorial, pest control, degreasing and construction maintenance chemicals.

ERGONOMIC, DELUXE HARNESS with **IMPROVED UV RESISTANT CONSTRUCTION** offers incredible day long comfort and better durability to stand up to the elements.

NOTES: Always follow chemical manufacturers' directions for proper use. Sodium hydroxide (lye, caustic soda, soda ash) are not recommend for use with any sprayer. These are highly corrosive to some of the materials and when mixed with water can produce a violent reaction. Some formulas may cause irritation of the skin and lungs. It is recommended that appropriate PPE is always worn while spraying disinfectants and sanitizers. Always follow the safety and use recommendations on the label. Many disinfectants and sanitizers are flammable. Never spray near heat sources and store in low temperature environments. Follow the label recommendations.
